Support of existing projects.

Sep 2020 - Feb 2021

### Junior Web Developer

Necessary People, Kherson

Development and support of existing projects.

Jan 2019 - Jul 2020

## Profile

I enjoy writing code and solving complex problems. I am result-oriented, patient and stress-resistant. I also read technical literature, various posts and other materials for self-development, follow best coding practices(include GRASP, SOLID, DRY, KISS, YAGNI).

My experience includes:

- Development & maintaining microservices;
- Writing API documentation;
- Efficient code review;
- Support for old and introduction of new code standards;
- Implementing GraphQL/RabbitMQ on backend side;
- Explaining and optimizing SQL queries;
- Have a some experience with Heroku, GitLab & GitHub CI/CD.

And this is not the whole list. For more information, please contact me. I am open for interesting proposals and projects.
